

EVERPURE

H-SERIES UNDERSINK DRINKING WATER SYSTEMS

H-SERIES UNDERSINK DRINKING WATER SYSTEMS

The same commercial quality that makes Everpure the overwhelming choice for water filtration in restaurants is also available for homes. Everpure's exclusive precoat filtration technology combines Micro-Pure and a unique pleated filter membrane to reduce particles as small as 0.5 micron. This highly engineered design offers the largest filtering surface area, longer filter life and consistent performance.

Bacteriostatic control*

FEATURES

- ▶ The exclusive precoat technology combines Micro-Pure filtration media and a unique pleated filter membrane **to reduce particles as small as 0.5 micron**. This design offers the largest filtering surface area, a longer filter life and consistent performance
- ▶ Scale inhibitor blended into Micro-Pure filtration media
- ▶ Everpure systems reduce contaminants, yet **retain vital minerals found naturally in water**. So the water tastes crisp, clean and refreshing
- ▶ Adsorbs common earthy, moldy, fishy tastes, and odors
- ▶ Everpure's metal canister delivers commercial grade durability and quality
- ▶ Built-in water shut off

GENERAL INSTALLATION / MAINTENANCE REQUIREMENTS

- Space requirements (in cm, including 6.5 cm of clear space under unit for cartridge change):
 - **H-54**: 38H x 13W x 13D
 - **H-104**: 51H x 13W x 13D
 - **H-300**: 56H x 13W x 13D
- Requirement of a separate drinking water faucet
- Replacement of cartridge(s) when capacity is reached, or when flow becomes too slow, but at least annually

Water you can trust*

BENEFITS

- ▶ These Everpure undersink drinking water systems give a **great tasting water** – all you want, on demand – for **cost that's far less than bottled water**
- ▶ Reduces mineral build-up in water using appliances
- ▶ Ideal for drinking and cooking purposes in your house or apartment
- ▶ **Premium Quality** – Taste the difference: everything made with water will taste better: coffee, tea, flavored water mix, juices, soups – even ice cubes.

* **H-300**

IT'S WATER FILTRATION YOU CAN TRUST!

THE PURE SOLUTION

Our products polish water to premium quality so that water is sparkling and free of unwanted tastes and odors. You'll taste the difference in every sip and everything made with water will taste better, too.

THE SENSIBLE SOLUTION

Our filters reduce lead amounts in your water – below the Federal Action Level of 10 ppb – as well as parasitic protozoan cysts and other microscopic particles that may be in your water supply.

THE CONVENIENT SOLUTION

Everpure systems are easily installed using common household tools. Our systems mount under your sink and are plumbed to a separate filter faucet. And cartridge replacement is easy, too – just like changing a light bulb.

THE PRACTICAL SOLUTION

At only cents per liter, this system is less expensive per glass than bottled water or other drinking water systems and provides about a year's supply of water, depending on the size of your family and the amount of water you drink.

System Tested and Certified by NSF International against NSF/ANSI Standard 42 and 53 for the reduction of:

Standard 42 - Aesthetic Effects:

Chemical Reduction

- Taste and Odor
- Chlorine

Mechanical Filtration

- Particulate Reduction: Class I

Standard 53 - Health Effects:

Chemical Reduction

- Lead
- VOC for H-300

Mechanical Filtration

- Cyst
